Keywords: Visual Basic 6.0

Abstract:

Scientific writing under the title "MAKING APPLICATION TO CONSOLIDATED DAILY ON PT TRI DHARMA WISESA USING VISUAL BASIC 6.0 basically discusses how to design a report making applications using Visual Basic 6.0.

In this application consists of forms, databases, queries and reports presented in the main menu as an opener this application form, so users can easily operate this application.

With the availability of entry forms are designed in such a manner expected to allow a user to create reports more efficiently and accurately.
